

# FIVE TOWNS IN PERIL OF INUNDATION

**BULLETIN.**  
**SALT LAKE CITY, June 25.**—The entire branch of the Denver and Rio Grande railroad at Schofield, about five miles from where the mammoth reservoir dam near Fairview, Utah, broke last night, destroying thousands of dollars in crops, is completely wiped out today, according to meager reports received here at the local offices of the railroad. Communication has been almost entirely cut off and definite information regarding the break is impossible.

**FAIRVIEW, Utah, June 25.**—The dam of the Price River Irrigation Company, twelve miles from here, which started to break yesterday afternoon was a total loss this morning. All fears that there will be loss of life in the towns of Schofield, Helper, Castle Gate and Colton, in the path of the 11,000-acre feet of water that was released in the break were dispelled this morning with the announcement by the Rio Grande Railroad that its force of men, assisted by workers of the irrigation company, had taken hundreds of men, women and children to safety.

While officials of the irrigation company were unable to give an exact estimate of the loss to the dam, crops and property, they declared that the \$3,000,000 reservoir are in peril. Residents of Schofield, Helper, Castle Gate and Colton deserted their homes and went to higher ground to escape the flood. All hope of saving the dam has been abandoned, and it is said that the water will reach the towns of Schofield, Helper, Castle Gate and Colton in less than 24 hours.

Officials of the Denver & Rio Grande at midnight sent out a wrecking crew from Helper and made up a bridge crew at Lake and instant service. F. E. Clark, assistant general manager in charge of the Utah lines of the Denver & Rio Grande, is at Helper.

The first break in the concrete core occurred about 10 o'clock, from forty to fifty feet wide and five feet high. Forestry officials stationed at Fairview went to the dam and tendered their services to the irrigation company. Big trees were blasted and dragged to the river bank in the hope that they would flow to the break and aid in staying the flow. They only tended to aid in breaking away.

**BREACH WIDENS.**  
At 3 o'clock this morning the breach had widened to a total of 100 feet, and the depth of the water was estimated at 15 feet. All hope of saving any of the water has been entirely abandoned.

Efforts to prevent a deluge by the sudden breaking of the entire structure are occupying all the attention of the officials. Several were hopeful that the release of millions of gallons through the break might sufficiently reduce the pressure on the dam to save the balance of the structure.

Others, however, declared that from midnight to 3 o'clock this morning the crumbling increased rapidly and that nothing could be saved.

**FLOOD THREATENS.**  
NEEDLES, June 25.—Flood stage prevails again here today with a sudden rise in the Colorado sending the waters to a dangerous depth. The ice and gas plants and railroad yards are menaced. The Santa Fe Railroad is renewing its work to avert disaster. It is estimated they have spent \$225,000 in flood protection work and much of this has been within the last two weeks during unparalleled high water.

Reports from Yuma, Hanlon's Heading and Volcano Lake indicate that the Colorado is rising gradually, about one foot a day.

**HOMES WASHED OUT.**  
TOPEKA, June 25.—Half a dozen small homes were washed away and livestock and yard fowl drowned here early today when the Colorado river, again on the rampage, broke through its banks at a new place and swept through this town suddenly. Property damage will total thousands of dollars.

**AMERICANS ARE ROBBED; BLAME SOLDIER BAND**  
LOS ANGELES, June 25.—Attacked by Mexican bandits, the Carranza soldier uniforms, Mr. and Mrs. J. H. McMichael of Los Angeles, were robbed of nearly \$2000 in gold intended to pay miners' wages and McMichael barely escaped with his life, according to their story related here following a flight from Sinaloa, Mexico.

McMichael confirms the United Press despatches carried recently out of Douglas, Arizona, of confiscatory and unbearable hardships being worked upon American mining interests in Sonora and Sinaloa.

McMichael is superintendent of a big gold-bearing property at Sinaloa. He has not been down following the robbery and after he had been taken by soldiers to a tree and a noose placed around his neck because he refused to give up his firearms.

# Anarchists From U. S. in Siege Seize Old Mansion as Fortress Defy Troops to Move Them Out

By William G. Shepherd  
United Press Staff Correspondent.

PETROGRAD, June 25.—Fifteen Russians who lived in America as leaders in the group of anarchists which the government has been attempting for days to persuade to abandon General Durnov's house here. They have made the beautiful building a reeking hole; they are disobeying the law against drinking vodka; they are threatening to give the government a hot time in ejecting them.

A party of Americans were permitted by the anarchists to visit the garden of their headquarters in this building today. They found banners with the motto "Death to all capitalists" fly in the breeze. Armed sentries guard every approach.

As I approached close to one gate-way with rifle, a classless hatched under his arm shouted: "Come on in, old boy—you're an American."

I explained I was a reporter—and immediately he thawed out even more. A hearty welcome, speaking English with a halting American twang. No sooner had he begun to greet me in English than a score of others roundabout clustered near, all excited and brokenly thinking to ask at once. The crowd on the sidewalk outside where the black banners marked off the anarchists' headquarters looked on with amazement. The average Russian, regarding an anarchist as a super-devil, hardly human, and they couldn't understand the apparently joyful accents with which I was greeted.

"Where do you live in America?" "What papers do you write for?" "What will you write be published in Detroit?" "Do you write for any 'Prisco' newspapers?"—were some of the questions hurled at me as I was led through the portals to the inner courtyard.

"How many of you here are from the United States?" I asked. "Fifteen," was the reply. "What are you acting like this for?"

"We're anarchists always," one man answered proudly. "We were when we were in the United States—but we never got a chance for action. Now we've a chance and we are making the best of it," he said.

**OBJECT TO WAR.**  
"Don't you believe in war?" "No, we don't. Now we're a bigger fight here against the capitalists. "Do you favor a separate peace?" "We are in favor of any old kind of peace. But we aren't cowards."

# State Optometrists Open Annual Convention Here

Members Will Seek Rating in Military Service on Par With Surgeons, Oculists

With delegates from all parts of California attending the eleventh annual convention of the State Association of Optometrists opened at the Hotel Oakland this morning. The convention will be in session until noon tomorrow, at which time the delegates will elect new officers for the coming year and delegates to the national convention which meets in Columbus, Ohio, next month.

The principal work of the convention, which will be taken up at the two day sessions, is an effort to have the United States Government give optometrists a rating in military circles that will place them on a par in point of promotions and advances with army surgeons and oculists. The work of the optometrist, covering the examination of candidates for the various branches of the Government service, is one of the important functions now performed mainly by civilian aid.

Reports from Yuma, Hanlon's Heading and Volcano Lake indicate that the Colorado is rising gradually, about one foot a day.

**DIES IN MONTH OF GOLDEN WEDDING**  
Amon Brunk, one of this city's old-time residents, died in a local sanitarium yesterday, one month after the celebration of his golden wedding. He was operated upon last week when one of his feet, which had become infected, was amputated. He was 85 years of age.

**BRAVE LAD FAILS TO SAVE FATHER**  
LOS ANGELES, June 25.—Like the theme of a tragic play when the death of the father leaves the small son helpless on an uninhabited island is the story brought here by Bryant McDonald, 12 years old.

Two hundred miles south of San Diego, the boy's father, C. F. McDonald, aged 55, was engaged in the fishing industry. The aged man fell from his boat and the boy, hearing his father's cries, swam to save him. He succeeded in reaching his drowning parent, and struggled in the water many minutes attempting to place the body to rest nearby. His strength unequal to the task, the boy was finally forced to give up and swim for his own life. The father sank and disappeared, and when young McDonald pulled himself on shore and partially recovered from his dazed condition he discovered the tale he had selected as the nearest rescue point was barren and uninhabited. For three days he suffered torment of mind and empty stomach. On the third day he succeeded in signaling a fishing boat and was brought to San Diego.

The tragedy occurred June 5. Young McDonald spent several days in San Diego before he could bring the sad news to his mother here. The victim of the tragedy was a well known retired railroad man in Southern California and was a former employee of the Salt Lake.

**"COLD" DECK USED**  
When John Abbott and William Hubbard won \$17 in a little game of poker at 472 Seventh street last night they became under the suspicion of the police, and when Patrolman J. Mulhern arrested them he found a "strange" pack of cards in Hubbard's pockets, according to his report. This pack is supposed to have been slipped into the game, the police say.

**MAY END STRIKE**  
BUTTE, Mont., June 25.—Important developments were expected in the strike of the Metal Mine Workers' Union against the mining companies of Butte with the arrival here of John D. Ryan, president of the Anaconda Mining Company. The miners are seeking increased pay and better working conditions.

Any change in the status of the miners' strike, it is thought, may also affect the strike of the electricians, who are seeking higher wages from the Montana Power Company, which supplies the power to the mines and other industries of Butte.

W. H. Rodgers, commissioner of the federal department of labor, who is here attempting to settle Butte's labor troubles, was to meet a committee of the Metal Trades Council, which has many of its members working about the mines. Later Rodgers was to confer for the first time with the Anaconda Copper Mining Company.

# BRITISH IN RAID ON WEST FRONT

(Continued From Page 1)

Further smashing operations in this section.

Incident to last night's raids were local operations that gained ground for the British. Thus some progress by them below Lens and northwest of Warneton in the Messines area is reported.

There is a momentary lull in the infantry activities on the Aisne front. The French have virtually succeeded in re-establishing in its entirety their line in the Vaux-la-Colonne area, denied by the crown prince's forces in a sudden drive on the narrow front last week. Further fighting in prospect to the east of this sector in the skirmishing for position on the part of the two armies, each anxious to gain dominating points for either offensive or defensive purposes.

In this connection, the artillery activity reported today, along various portions of the Chemin Des Dames Plateau is significant.

**BULGARIAN TERMS.**  
VIENNA, June 25.—Bulgaria will insist upon the retention of the northeastern corner of Serbia stretching eastward from a point west of the Moravia Valley.

This declaration was contained in a note issued by Premier Radoslaw of Bulgaria, printed in the Neue Freie Press today.

The Orient railway, which runs from Berlin to Constantinople, there connecting with the Bagdad railway, runs through the Moravia Valley.

**RAIDS SUCCEEDED.**  
LONDON, June 25.—In addition to making successful trench raids the British reaped their pressure in the Lens sector and also in Belgium during the night. The war office announced today that ground was gained southwest of Lens, on the Arras front, and northwest of Warneton, in Belgium.

Complete lines of trenching, German trenches, inflicting losses on the garrisons and bombing dugouts. Raids were made near Epehy, Bulcourt, and Pogg.

One raiding party, the official statement said, remained in the German trenches for two hours, blowing up defensive works and hurling bombs in crowded dugouts. Heavy casualties were inflicted on the Germans.

**NIGHT ATTACK SUCCEEDED.**  
BRITISH HEADQUARTERS IN FRANCE, June 25 (by the Associated Press).—Naval and official statements report that the British are keeping up their pressure day and night along the entire 120-mile front they occupy. Last night a number of local enterprises were carried out, the most important, increasing as it does the British grip along Lens. Under the light of the stars, British troops stormed and captured 400 yards of front line trenches which were held by the Germans.

Elsewhere several raids in the darkness served to keep the Prussian nerves on edge.

**STEAMER IS SUNK.**  
MONTREAL, June 25.—The steamship Ortolan, a vessel of 2145 tons gross, owned by the General Steam Navigation Company of London, was torpedoed and sunk by a German submarine June 14 and three members of her crew lost their lives, according to survivors of the ship who arrived today.

An American vessel, which was about 200 miles from the scene of the sinking vessel, saw the rescue and several shots were sent at the submarine from guns on board that ship.

**UNIVERSITY IS CLOSED.**  
BERLIN, June 24, via London, June 25.—The Vossische Zeitung learns that General Hans von Bessler, governor-general of German occupied territory in Russia, has closed Warburg University and the returned Institute because of a student strike dating back to last May. As the result of a street row several students were arrested.

**WHAT IS DOING TONIGHT**  
Pittsburg Social and Improvement Club meets, 722 East Fourteenth street. Church, evening service, Hotel Oakland.

Red Cross rally, Berkeley High School Auditorium. George Wharton James lectures on "The Slave Market." Columbia—Will King in "Very Good Deed." D. & G. Kane in "Whose Wife?" Franklin—Louise Glaum in "Love or Justice." Kinema—"The Silent Lie." Idora Park—Inland beach. Neptune Beach—Surf swimming. Lake Merritt—Boat.

**WHAT IS DOING TOMORROW.**  
Civil Service Board meets, City Hall, evening. Merchants' Exchange meets, evening. Art exhibit, Auditorium. Alliance—Central Improvement Club meets, Mutual Hall, evening. Moose hold whist party, Idora Park. Optometrists' convention, Hotel Oakland.

Dedication of new gymnasium and community house, Fruitvale Presbyterian Church, evening. Southern Club organizes, Wheeler Hall, U. C., 5 p. m. Strauss gives concert, Wheeler Hall, U. C., 8 p. m. Sequola Lodge holds reception, Maple Hall, evening.

Lyons Post and Corps holds joint social, Memorial Hall, evening. Caliente Parlor holds whist party, Pythian Temple, evening. O. P. holds jinx and stag, I. O. O. F. Hall, evening. Ad Bureau of the Chamber of Commerce, Hotel Oakland. H. R. Liff lectures, Chabot Hall, evening.

**WOMAN FINDS MEN ASLEEP IN HER BED**  
TRIBUNE BUENOS AIRES, June 25.—Mrs. Virginia McGary found that two men had invaded the sanctity of her bedroom when she returned from the theater at midnight. They were asleep in her bed, and their clothing was scattered around her apartment. She ran for the police. Returning with Corporal Migola, it was discovered that the intruders were Sedrick Crowe and Bernard Tuttle, traveling salesman, whom Mrs. McGary knew slightly. They were arrested for disturbing the peace and released on \$20 bail.

After Mrs. McGary had told her story to Police Judge Oppenheim, the bail was raised to \$1000 and the case continued until tomorrow.

**KRYPTOKS**  
can be worn by anyone and with perfect comfort and satisfaction when the eyes are properly tested, and the mountings or frames adjusted to suit the eyes. We recommend them.

# MEXICO'S BIG OIL TAX IS RESENTED

WASHINGTON, June 25.—Firm but friendly representations to Mexico against new high taxes in the Tampico oil fields and other representations against the so-called "denationalization" of foreign companies, have been made to the Carranza government by the United States government, it was learned today.

Government heads have been warned in the past few days that the Tampico situation as regards the oil supply furnished the allies from there, is serious.

Great Britain is understood to have seconded the representations against the oil taxes, though whether she took the course of sending the note to Carranza is not known.

The taxation representations, entirely friendly in tone, but quite insistent upon a change, seek to lower taxes which now are now regarded as almost confiscatory.

The other representations are directed against the Carranza decree compelling all foreign companies to operate under a Mexican charter, thus taking them out from under the protection of their own governments.

Carranza's position is known to be that the oil taxes will furnish considerable money to run his government, but the American and British governments hold that with their large drafts of oil for navy and air service they are entitled to a greater consideration than has thus far been given them.

Unknown to Carranza, it was learned, the German consul in Tuxpam district has been stirring up trouble. Some disturbances have occurred, but these have not been sufficient to cause any particular alarm in government circles. Oil has been coming out freely at the rate of hundreds of thousands of barrels a day.

Meantime, there is an effort on the part of some government authorities to force Carranza to accept a new law to meet increasing needs for crude oil. The Navy maintains its reserve should be kept intact; the Interior Department feels that America's needs at present, especially for her aeroplanes, are such that a freeing of supplies would be advisable.

**SLAVS WILL STAY IN FIGHT; BAKER**  
Confidence that Russia will steadfastly continue to stand by the allies is expressed by Raymond T. Baker, director of all the minor and auxiliary offices in the United States, who has arrived on a visit to his former home here from Washington, D. C. Baker spent two years in Petrograd as secretary to former Ambassador George T. Marry and knows Russia and the Russians intimately.

"I have been away from Russia for a year," said Baker, "but, knowing the Russian people as I do, I can say that they will stay in the war to the end. I believe that Russia will receive a message from the Russians and the sending of the Root mission there to confer with the powers of the new government, have accomplished their purpose of helping the Russians to see who are their friends."

While here Baker will spend most of his time at the home of his mother, Mrs. George W. Baker, 213 Mountain avenue. Baker is here on official business, the nature of which he said he did not care to discuss.

# NEW NAME FOR REIGNING HOUSE IS SUGGESTED

LONDON, June 25.—Following the action of King George in cleaning out all German titles from the royal family, the suggestion was put forward today that the name of the British royal house itself be changed. The present name is the House of Saxe-Coburg-Gotha, which is decidedly German. It has been suggested that the name be changed to House of Stuart or the House of Windsor.

The Times learns that in view of the recent decision of King George that those princes of his family who are his subjects and bear German names and titles should relinquish them, the Duke of Devonshire, Marquis of Cambridge and Prince Alexander of Battenberg becomes Marquis of Carisbrooke.

# COCCHI CLAIMS STRANGE TRANCE

BOLOGNA, June 25.—Interrogation of Alfredo Cocchi, self-confessed slayer of Ruth Cruger in New York, is kept secret by law in Italy until just before trial, when counsel are allowed to examine the confession. According to unofficial information, Cocchi said:

"My machine shop gave me a satisfactory position. I earned sometimes \$100 a week. I had never seen Ruth Cruger before she came to my shop to have her skates sharpened. From the very beginning Ruth did all in her power to attract my attention. I felt something strange when her dark, penetrating eyes fixed upon mine."

"I was still more disconcerted when she came again February 13 to get her skates. An overpowering attraction for the young woman seized me. I did not know what I was doing. I dreamed. My memory at this point fails me utterly."

"In view of the facts which have been presented, it must be true I attacked and killed her. But, God help me, I did not mean to. It was my first offense, but it is of such a nature that I cannot believe it to be true. The greatest punishment is to think of what suffering and agony my wife and children are undergoing, as I witnessed during our marriage, when we love each other most tenderly."

**CHINESE AGAIN ARRESTED.**  
Ah Dick and Ah Chung, who feigned their bail last week following their arrest on charges of having lottery tickets in their possession, were taken into custody again last night at 1734 Seventh street by Corporal Brock and Patrolman M. Moore. They were released on \$10 bail. A bundle of Chinese lottery tickets was taken as evidence.

**PIAN WHIST PARTY.**  
The women of the local Calumet lodge will give a whist party tomorrow at Lincoln Hall, 411 Thirteenth street.

**CASTORIA**  
For Infants and Children  
In Use For Over 30 Years  
Always bears the Signature of *Dr. J. C. Peck*

**OUR DAUGHTER**  
8 years old, was taken ill, her illness developing into a nervous trouble. She lost all control of her arms and limbs, was unable to speak, walk, or feed herself. After treatment with other doctors without result, she took her case to DR. CHAN & KONG, and after three weeks' treatment she was as well and hearty as ever.

We believe if we had not taken her to Dr. Chan & Kong we would not have her with us today.

This is a signed statement from Mr. Lawrence, of U. C., 8 p. m. Sequola Lodge holds reception, Maple Hall, evening.

Lyons Post and Corps holds joint social, Memorial Hall, evening. Caliente Parlor holds whist party, Pythian Temple, evening. O. P. holds jinx and stag, I. O. O. F. Hall, evening. Ad Bureau of the Chamber of Commerce, Hotel Oakland. H. R. Liff lectures, Chabot Hall, evening.

**WILL TALK SHOP**  
NEW YORK, June 25.—The men who are responsible for jokes and lines that you are perfectly sure you read somewhere when you were still an infant met here today when the American Press Humorists opened their fifteenth annual convention.

After a trip to the laughing hyena at the zoo and feeding nuts to the squirrels in Central Park, the solemn-faced men started work and decided that what superlative mother-in-law bloom, which is on the point of being outlived, in the first hours of the meeting the successor couldn't be found, so it may be possible that it will still be with us for another twelvemonth.

**FEAR GERMAN AGENTS.**  
PENDLETON, Ore., June 25.—Fearing the German agent or I. W. farm hands may set fire to the great wheat fields of the Inland Empire, wheat growers are planning some united action to protect their fields after the grain becomes ripe and harvestable.

It is authoritatively reported here that I. W. W. are endeavoring to place one man on every large wheat ranch in Eastern Oregon, Washington and Idaho, intending to set fire to the wheat fields as a protest against war.

# COUNCIL IS CREATED FOR U.S. EXPORTS

WASHINGTON, June 25.—President Wilson, by executive order, today created an exports embargo council to administer the export embargo provisions of the espionage act.

By the administration of embargoes through this council the nation will be able to take many steps for the successful prosecution of the war and also to prevent supplies reaching Germany through neutrals.

The President's order vests in the secretary of commerce the executive administration of all instructions to be issued by the President under the act, and establishes an exports council, to be composed of the secretary of state, secretary of agriculture, secretary of commerce and the food administrator.

All matters of policy in connection with operation of the act will be decided by the council, which will recommend to the President proclamations to be issued, putting certain commodities under export control.

Coal and grain will be the first commodities to go under the act. Food exports will be left largely in the hands of the food administrator, which will consult the council where international questions are involved.

One of the first effects of the act's operation will be to give the government a firm control of the domestic food situation. Shipping, too, will be controlled to a large extent under the act. Secretary Redfield said his department would have the act in operation within forty-eight hours.

**U. S. STAND AIDS**  
WASHINGTON, June 25.—Increased confidence in the ability of the Chinese to adjust their internal political differences is shown in today's dispatch to the State Department. The American legation at Peking reported that the attitude of the United States, in which hope was expressed that an amicable solution to all controversies might be found, had had a beneficial effect and that there appeared a disposition on the part of the different factions to compromise.

**CHINESE AGAIN ARRESTED.**

## TWO KILLED, TWELVE HURT IN ACCIDENTS

Two deaths, two probably fatally injured, ten seriously injured, and one extraordinary escape from death, is the record for a series of accidents yesterday. Of the injured, one man has been unconscious for twenty-four hours and is expected to raise the number of dead to three.

The 2-year-old son of Mr. and Mrs. B. T. Sangunetti, 322 North Twelfth street, San Jose, was instantly killed on the state highway near Gilroy when a machine in which he was riding collided head-on with another machine driven by Millard Marks of Watsonville. Just what caused the accident has not been satisfactorily explained. A party consisting of Sangunetti, his wife, Fred Allen and wife and four children was returning from an outing at Monterey. Marks, with Mrs. Tony Tara, her husband and one child, was on his way in the opposite direction.

When just outside the town of Gilroy the two machines ran together. The baby's head was crushed against a stanchion which supports the top of the machine. Mrs. Tara was hurled to the roadway, sustaining a fracture of the skull. The rest of the party were more or less bruised and scratched. Friends of the Sangunetti family, in a machine directly behind, rushed the victims of the accident to the Gilroy hospital. The baby was dead on entrance. Mrs. Tara unconscious and Mrs. Sangunetti suffering from a broken jaw.

**MAN RUN DOWN.**  
An unidentified man about 60 years of age was run down and killed at Sixth and Howard streets, San Francisco, yesterday by an automobile driven by Samuel Baker, 31 Harriet street. Baker says the man stepped directly in front of his machine before he could bring the car to a halt. He stopped his machine after the accident and took the man to the Central Emergency hospital, where it was found that the victim was dead. Baker was arrested on a charge of manslaughter.

Three men were injured painfully when a machine which they were riding was struck by another machine driven by Henry J. Hollin, 791 Ashbury street. The two cars upset, spilling the occupants on to the pavement. The injured men were: William Quintin, 15 Chatham street; Forest Eden, 757 Capp street; E. J. Preston, 445 Clippert street. Samuel McClure Burlingame, contractor, who, with his family, was seriously injured when their machine slipped from the state highway and rolled down an embankment into a ravine, is still in a stupor at the Mary Jesse hospital at Santa Rosa. Physicians in charge diagnose his condition as due to concussion of the brain and hold out small hopes for his recovery. The rest of the party, all of whom were injured, are recovering.

**DRIVER ACCUSED.**  
Mrs. John Danner, wife of a Santa Rosa rancher, is in a Santa Rosa hospital as the result of a collision between her husband's machine and one driven by Lawrence Kistner. Kistner is blamed for the accident, and a warrant charging him with reckless driving has been issued. L. B. Hanley, 1309 Ninth street, this city, had a narrow escape from death last night when his automobile stopped on the Southern Pacific tracks at Sixth and Webster streets. Hanley was being towed to a garage for engine repairs when the car parted, leaving him astride of the crossing. An inbound train wrecked the machine as Hanley jumped to safety. He escaped by a narrow margin of a few inches.

**WOMEN INJURED.**  
GUERNEVILLE, June 25.—Two unidentified women of San Francisco today are at the point of death from internal injuries and two Sebastopol business men, J. E. Beebe and L. V. Howell, are seriously injured as the result of an automobile accident late yesterday afternoon on the Monte Rio grade.

The driver, who escaped uninjured by jumping, drove too close to the edge of an embankment and the car tumbled over and fell thirty feet.

## WITH FIRE IN HOLD

ASTORIA, Ore., June 25.—The steamer Margaret, with a fire in her hold, was being towed to Astoria today by the tank steamer Atlas. Fire was discovered yesterday while the Margaret was off Yaquina Head, Ore., four days after the vessel left the Columbia river for China with lumber.

## Rena Mooney's Counsel Fight Conspiracy Evidence

Arguments Made to Prevent Attempt to Connect Defendant With Billings' Acts

TRIBUNE BUREAU  
625 MARKET ST.

SAN FRANCISCO, June 25.—A legal battle to determine the admissibility of evidence of an alleged conspiracy between the defendant, her husband, Warren K. Billings, and others was staged today before Superior Judge Emmet Sewall in the trial of Mrs. Rena Mooney. After Assistant District Attorney Louis Ferrari had stated what he expected to prove and the defense had offered their objections, the judge announced that the authorities were cited and were ordered to return at 2 o'clock this afternoon.

A sensation was introduced by the prosecution when R. C. Greenleaf, a member of the Brotherhood of Railway Trainmen, who is one of the silent jury of labor men who are to return a verdict after listening to the evidence, was called.

When asked to identify a most important document, said Ferrari, Greenleaf did not answer, although the prosecution hinted that he might be in the courtroom the balliff could not identify him, and it would look as though the labor jury entire was not hearing all the evidence. At the adjournment of court, Ferrari declared that he had a letter which tended to connect Greenleaf with the Mooneys.

"We will locate him and have him in here today," said the assistant district attorney.

**BALZ IS WITNESS.**  
Henry Balz, detective at Sacramento, who was connected with the arrest of Warren K. Billings and his conviction and sentence to two years in Folsom for carrying a suitcase full of dynamite on a street car, was the witness on the stand when the conspiracy phase of the case was opened up. The court wanted to know whether Ferrari had concluded his direct case and was informed that the state expected to call at least two other witnesses.

"Will Mrs. Edsall be called?" inquired Attorney Maxwell McNutt. "I don't know," responded Ferrari, and he immediately appealed to the court. "I don't want counsel to ask me who I am going to call. It is true that the defense is overburdened with legal talent, but I don't want any help. I want to try this case in my own way."

Supporting his petition that Balz be allowed to testify as to Billings' activity, Ferrari continued: "We intend to show that this defendant, Thomas J. Mooney and Warren K. Billings, with others, entered into a conspiracy to bring about anarchy by dynamiting property and taking part in strikes whether interested in them or not. We will show that they actually conspired to commit the explosion of July 22, 1916, had

one and the same purpose in view, to encourage and promote anarchy. We will show that the stopping of the preparedness parade was a direct aim of this conspiracy which had for its object the tearing down of the government. They wanted to destroy anything that would put the government in a better position to throttle anarchy and they believed that the strengthening of the army and navy was against their purpose, and in this conspiracy they aimed at the destruction of these forces. We will show that in Sacramento, 1916, immediately on the arrest of Warren K. Billings, the defendant, Rena Mooney, visited him at the jail, took notes at his trial and took them to Mooney, who was then a fugitive. Then we will go down to Contra Costa county and show what happened there and follow this conspiracy to the day of the preparedness parade. We will show that in this case was the most straightforward overt act of the conspiracy."

**SCHMIDT CASE CITED.**  
Ferrari referred particularly to the Schmidt case resulting from the dynamiting of the Los Angeles Times.

"In that case, your honor, the conspiracy existed among union men against an owners' organization. Many overt acts were committed under that conspiracy, but the Times was not a member of the owners' organization. Nevertheless they dynamited the Times. It was shown that this was a side issue of the conspiracy. The Times was not a member of the labor organizations. It was contended that they were trying to put the paper out of business and the court sustained this theory of the conspiracy."

McNutt's formal objection had not been put in up to the point where the jury had remained during the argument. McNutt then made his objection on ten grounds, declaring principally that the introduction of evidence would be an attack on Mrs. Mooney's character and would involve collateral matters and crimes foreign entirely to the preparedness parade bomb explosion. The jury was then excused and the argument proceeded.

At the opening of the session Edward F. Flund, county clerk of Sacramento, turned over to the clerk of the court the judgment roll and records in the conviction of Billings in the Sacramento dynamite case. Detective-Sergeant William Prohl was then cross-examined as to the pistol, bullets and other articles taken from Mrs. Mooney's apartment following her arrest. McNutt brought out that although leaving a receipt for the property removed, which was itemized, he had made no mention of a pistol and cartridges. Prohl said he did not enumerate many articles contained in boxes, satchels and packages. The prosecution was directed to give the defense an opportunity of examining all these articles during the noon recess. Detective Balz was then placed upon the stand.

## SCOTT IS HEARD IN RATE INQUIRY

SAN FRANCISCO, June 25.—W. R. Scott, general manager of the Southern Pacific Company, was the chief witness before the State Railroad Commission today when his road began the presentation of its case in connection with a petition for a 15 per cent freight rate increase in California. Each of the twenty-six railroads which have made application to the commission, is being given an opportunity to present its evidence. The Santa Fe has already had its hearing and that of the Western Pacific was concluded today. Scott explained the increased operating cost and detailed what the railroads would have to pay providing the Adamson law was extended to include other classes of labor. He showed the difficulty of obtaining competent help and explained that higher wages were necessary as the railroads were now forced to bid for their help.

R. Adams, assistant auditor for the Southern Pacific, presented data showing the various costs of operation and investments and what the increases would be in the near future. Although the railroads have presented a composite table detailing the increased cost of operation and the percentage of return on investments, each separate company is being permitted to present its data.

## WELCOME MISSION

BOSTON, June 25.—Prince Udine and members of the Italian mission arrived from New York this morning. They were given an enthusiastic reception.

## MOUNT VERNON, Va., June 25.—

Belgium and Russia united Sunday at the tomb of George Washington in paying homage to the spirit of liberty and freedom, which his memory incarnates. The official diplomatic missions from the Belgian and from the new Russian democracy pledged themselves and their countries to every effort at destruction of autocracy and the safety of democracy.

## WILL RUSH TAXES

WASHINGTON, June 25.—Prohibition amendments to the food control legislation will not interfere with the Senate finance committee's plans to complete the war tax bill this week and have it ready to follow the food bill in the Senate. Chairman Simmons said the committee would proceed upon the assumption that liquor will remain a revenue source, and should Congress accept the prohibition proposals, the bill probably will be returned to the committee to consider other taxation.

## TRIAL IS DELAYED

WASHINGTON, June 25.—Mabel Vernon of Nevada and Virginia Arnold of North Carolina, two suffrage pickets taken into custody by the capital police Saturday when they attempted to display a banner on the visit of the Russian mission to Congress, were not brought to trial today, as had been planned, because the congressional committee which have charge of the grounds advised the police to drop the case, at least until those of other suffragists arrested at the White House have been decided.

## PROTEST IS FILED

The Alameda County Civic Association today filed with the city council a protest against any extension of time being allowed the Southern Pacific Company for the removal of long wharf which, under present agreements, must be removed in November, 1918.

## WOMAN CREATES SCENE IN LOBBY

TRIBUNE BUREAU  
625 MARKET ST.

SAN FRANCISCO, June 25.—The lobby of the Hotel St. Francis was the scene of considerable excitement this morning when Alene Fayre, a woman who has several times been arrested by the police and who is temporarily living at 627 Washington street, Oakland, demanded to see the manager, Police Commissioner James Wood. She was greeted by the clerk and the police were sent for. The woman resisted the officers, but was taken to the Detention hospital, where she will be examined as to her sanity. Alene Fayre has been arrested three times within the last two weeks. She was taken to the police station on charge and was released by Police Judge J. J. Sullivan. On June 14 she was arrested for defrauding an automobile driver, but the case was dismissed. On June 15 the police again found her the center of a wrangle and she was accused of disturbing the peace.

## TEACH ARTILLERY

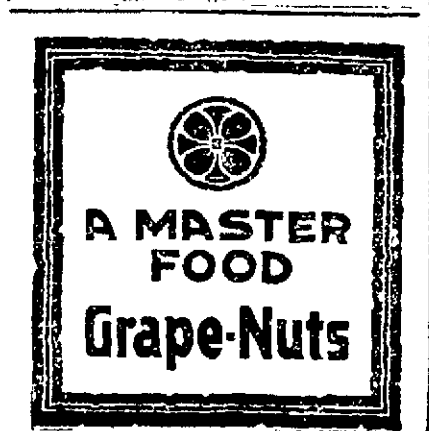

WASHINGTON, June 25.—Six regiments of National Guard field artillery were today ordered out for assignment to training camps in order to teach men who are learning to be artillery officers. The assignments will be as follows: Plattsburgh, N. Y., first regiment, New York; Madison barracks, New York; First battalion of Second New York; Fort Niagara, regimental headquarters and one battalion, Second New York; Fort Belvoir, Ill., one battalion; Fort Snelling, Minn., one battalion and regimental headquarters, Minnesota; Presidio, San Francisco, one battalion California.

## WOMAN IS KILLED

BEAIRE, O., June 25.—As she lay in bed beside her husband, Mrs. Lyman Hudson, aged 50, was murdered at midnight by an assassin, who fired two shots into her bedroom through an open window. The husband was uninjured. The police suspect a foreigner who quarreled with Vernon Hudson, the woman's son, yesterday, and who, it is believed, fired into the bed, believing the son was sleeping there.

## GIVEN UP BY SIRE

SAN FRANCISCO, June 25.—Emil Robert Larsen, the second slacker to be given a prison sentence, was ordered confined in the county jail for ten days by Federal Judge Dooling today. Larsen's father, an aged sea captain, had surrendered him to the authorities. The court ordered that he be made to register, but was lenient upon him as he is disqualified from military service by reason of an amputated trigger finger.

## SAYS DISCIPLINE WILL WIN FOR U. S.

"Our national efficiency would very probably be increased if Congress would adjourn during the progress of the war," declared the Rev. Frank M. Sibley, pastor of the First Presbyterian church, last evening, in his sermon on "Christ's Remarkable Discipline Appeal for These Times." "For forty days the army bill was debated—a demonstration of the danger of mobocracy rather than of the force of democracy. The trouble with our national affairs is that we have been wanting in the sense of discipline."

"We will win the war if the American people practice discipline. Applied to food products, discipline will enable America to feed her allies; applied to her man power, it will enable her to send to the front an invincible army. History has shown that the American soldier, under proper discipline makes, with his initiative, an ideal unit of a fighting machine."

"Discipline applies to the average citizen as well. If we are not loyal to our government we forget our religion. The man who sneers at the flag today is a foe of the kingdom of brotherhood on earth and of the grand and unified movement to make kings and national selfishness march in the twilight."

## DOCTOR TO SPEAK

Dr. Edward von Adelung, who has just returned from a six weeks' tour of the chief cities of the East, including New Orleans, Washington, New York and Boston, will speak in Trinity church, Telegraph avenue and Twenty-ninth street, tomorrow night, at 8 o'clock. His subject will be "Impressions of the East During War Times." Both in Washington and in New York Dr. Von Adelung had advantages in learning about war problems and preparations. He attended a monster mass meeting in the Hippodrome, New York, at which Roosevelt, the governor of the state and others spoke.

The meeting at Trinity church will be open to the public.

## OLD GUARD PLANS

Members of the Old Guard and former members of Company A, Fifth Infantry Regiment, N. G. C., will meet tomorrow night in Police Judge Samuels' courtroom, city hall. There have been previous meetings and the work of reorganizing those who served with these organizations is well under way. The men expect to do home guard duty.

## TOO WEAK TO FIGHT

The "Come-back" man was really never down-and-out. His weakened condition, because of overwork, lack of exercise, improper eating and living demands stimulation to satisfy the cry for a health-giving appetite and the refreshing sleep essential to strength. GOLD MEDAL HAARLEM Oil Capsules, the National Remedy that befall the work. They are wonderful! Three of these capsules each day will put a man on his feet before he knows it; whether his trouble comes from uric acid poisoning, the kidneys, gravel or stone in the bladder, stomach derangement or other ailments that befall the overworked man. Don't wait until you are entirely down-and-out, but take them today. Your druggist will gladly refund your money if they do not help you. Accept no substitutes. Look for the name GOLD MEDAL on every box, three sizes. They are the pure, original, imported Haarlem Oil Capsules.—Advertisement.

## BODY IS FOUND CALLS ON BANKS

BOSTON, June 25.—The body of an unidentified man, about 22 years of age, whose heart had been cut out, was found in a room in the West End hotel today. The victim had been stabbed several times in the throat.

WASHINGTON, June 25.—The comptroller of the currency today issued a call for the condition of national banks as of the close of business on June 20.

## War Orders

WITH the placing of orders for army and navy supplies there is a tremendous increase in all industrial activities.

More men in the yards and shops mean more young men and women in the offices.

Are you ready to take your place in the nation's industrial life—are you fitted to take advantage of the opportunities offered when manufacturing concerns, shipbuilding yards and plants of all kinds are working to capacity or on a continuous day and night schedule?

A few months of actual business experience in a business college, one where the courses are designed to meet the demands of modern business, will enable you to make the most of your opportunities.

Do you realize that every month Heald's Business College has more calls for graduates than it can fill—that this institution cannot supply the demand for capable and efficient office employees?

## HEALD'S Business College

Day and Night Classes—Enrollment Daily

Grand stand seats  
(1,000,000 of them)  
only \$1,000,000

3 men on, 2 strikes and 3 balls. Worth \$1.00 and then some. And no doubt you'll pay your ball game dollar. And so will 1,000,000 other good fans.

And we will spend \$1,000,000 so that you may all take your 7th inning stretch and light up another fragrant OWL Cigar. You see it's this way:

The OWL must be fragrant. The OWL must always be fragrant. So to "sureify" OWL fragrance,

we keep on hand always, at least \$1,000,000 worth of OWL leaf. This OWL leaf is constantly curing and mellowing. When after months of curing it is judged "ready" by watching experts, it goes into the OWL Cigar. But only then.

That's the plain story behind OWL fragrance. It's a story that the 5c OWL will tell you in every mellow, fragrant puff.

Why not try the OWL today? It pledges you a mighty good smoke. And it's in almost every cigar store.

# APPRAISERS WILL START LOAN WORK

BERKELEY June 25.—President Burrill G. White, of the Federal Land Bank of Berkeley, announced today to the National Farm Loan Associations in process of formation, that additional appraisers and other employees would be added to the staff of the bank, and urged that the work of forming the associations be completed as soon as possible and forwarded to the bank.

"We are in receipt of a communication from George W. Norris, Farm Loan Commissioner, in which he urges this bank to increase its output without impairment of quality." Said President White, "we shall immediately increase our output at least one-third."

"We are now forwarding to Washington an average of two applications for charters a day. None of these applications may be made unless accompanied by \$200, for loans to the amount of \$1,000, and \$500 for loans to the amount of \$100,000. In one instance, Humboldt county, the loans asked for amounted to \$250,000.

Taking the minimum average, however, this bank is now passing on loans at the rate of one million dollars a day. It is not possible to be sufficient to enable us to loan our quota of \$12,000,000 within the year were it not for the fact that 90 per cent of the 6000 applications, which had been prepared before the bank opened, had been passed.

**SEVENTEEN CHARTERS.**

According to latest reports from Washington, the Farmers' Union have been granted through this bank, and the total number of charters granted through all twelve banks was ninety.

The bank's efforts for the restoration of efforts and the appraisers, who, at the beginning of the bank's operations, were to appraise the land offered for sale of one association in a district and then repair to another district, will now be able to appraise the land offered for security to the bank's association with no waste effort or time.

With the formation of the Washington Loan and Trust Co., the Farmers' Union Association last week, Alameda county stepped into the ranks of those farmers who are organized under the National Farm Loan Act to increase the food supply of the country.

# WOMAN LEAPS IN EFFORT TO DIE

After penning a note which read, "I am starving to death; protect me in the name of God," Mrs. Blanche Whitton, 30 years old, jumped out of a second-story window in a rooming

house at 308 Thirteenth street this afternoon and narrowly escaped death as the result of injuries she sustained. Mrs. Whitton was picked up and taken to the Emergency Hospital in the police ambulance.

Other roomers in the place could give no explanation of the notes which they found in the room, and the police are endeavoring to locate her husband. She told the police that she was being held forcibly and had been refused food. Her ankle is broken and she suffered a possible dislocation of the spine.

**BREAKS ANKLE.**  
Deputy Sheriff Earl Brown broke his ankle this afternoon when he missed his step in getting out of a automobile.

**Have Good Hair and Clean Scalp**

Free from dandruff and itching. It's easy. On soething rub spots of dandruff and itching with Cuticura Ointment with end of forefinger. Geting

Continue on scalp skin, not on hair. Cover head for night. Next morning shampoo with Cuticura Soap and hot water. Rinse with tepid water. Cuticura can do many other things equally well for the skin and scalp.

# VE WEEKS AT HOME

# BABE HOLLIS HURLS RICHMOND ELKSTO GREAT VICTORY

One of the best exhibitions of how the national game should be played was given by the Richmond Elks on the home diamond, where they trimmed the Stockton Sperrys 4 to 1.

excellent support from his teammates managed to hold the Stockton batters to one hit and fan ten, while Martin also loved to pitch. He was especially responsible for only two of the runs made off him, the others coming when his relief pitcher was in the pinches.

Richmond was so good in putting two men across in the third, Mattson batted Stockton's grounder, Hollis walked to first base and the ball rolled into right field where Stockton's center fielder got tangled up on the play. Hart scored from second and Hollis scored on MacLennan's sacrifice.

Stockton scored their only run in the sixth. Martin hit one against the left field fence for a single. Mattson forced

Richmond added their third run in the seventh when Schawke, who played a key role in all three games, cashed a triple to the score board and later scored himself hit by Hart, the ball almost carryin' in Martin with it. Their final run came in the eighth when Driscoll doubled to right, stole third and scored on a sacrifice fly by MacDonald.

Most every player on the Richmond team had a chance to bat at one time or another, and it was a pretty good thing, too. "Chief" Autry ran half way to second to pick up Osborne's grounder with one out, and to get a hit for the happy team to Hollis. The fourth furnished another thrill for the fans when "Babe" Driscoll

ran back to the left field fence and  
 returned to the home plate. He hit  
 Stockton, and Schwake, for the Elks, will  
 have to divide the honors for the best  
 pitcher of the day. Felts made a great  
 catch of his home top. Driggs was the  
 leasuer to left and Schwake took a ball  
 off the right field fence that looked al-  
 most sure to go into the stands and go  
 away from him. Rimington would have  
 made a three-bagger. The game was  
 going along a long time to see and  
 Richmond was ready to play to see and  
 today it will not be long before new  
 stands will have to be built to accommo-  
 date the crowds.

P. L. Butler, who turned in the low score in the qualifying round the Claremont golf play Saturday, followed it up yesterday by defeating Donald Green, a scratch man of the tourney. Butler won by a big margin of five and four. W. N. Moore had to play an extra hole to beat A. K. Munson, but the real feature match of the day was that between Guy C. Earle and J. J. Donovan, the match going to the winner after an extra hole.

The twenty-third green before Donovan won. Following are the results of yesterday's play:

**FIRST FLIGHT.**

F. L. Butler defeated Donald Green, and 4.

F. F. Hall defeated L. D. McLaughlin won on nineteenth.

F. R. Muhs defeated Robert Van Sant by default.

W. W. Potter defeated Dr. A. H. Wallace, 2 to 1.

by default.  
E. A. Rix defeated H. McMillan, by default.  
W. A. Blair defeated L. J. Morse, by default.  
L. W. Wolcott defeated S. N. Forsman, by default.  
A. A. Wilson defeated H. D. Nichols, by default.  
C. J. Youngberg defeated F. R. Weber, by default.  
J. J. Donovan defeated Guy C. Earl, by default.

won on twenty-third.  
 C. M. Goodall defeated Bruce Heathcote  
 by default.  
 F. C. Coogan defeated Dr. C. F. Ford  
 by default.  
 W. P. Caddis defeated T. E. Bibbins  
 2 up.  
 N. Moore defeated A. K. Munson  
 won on nineteenth.  
 C. C. Ellis Sr. defeated C. C. Ellis Jr.  
 2 up.

**THIRD FLIGHT.**

H. H. Brown defeated George Ross.

and 2.  
W. J. Rand defeated J. G. Milburn, 1  
and 1.  
W. R. Briggs defeated F. C. Phelps, 1  
and 1.

# MENSOR-SHEEHAN FIND BATTING EYES

## Oaks' Heavy Hitters Have Bad Week With Beavers

JACK SHEEHAN and Eddie Mensor, two of the weak sisters in the Oakland batting order, found their batting eyes last week against the Beavers and shared with Ray Miller and Jack Roche the honor of doing the heaviest hitting for the week. Sheehan had his best batting week of the season, hitting seven times out of 21 times at bat, for a batting average of .333. He and Mensor each scored five runs for the leading run-making honors of Howard's club for the series. Mensor hit eight times in twenty-seven at bat for a .296 average. Jack Roche laced out seven hits in fifteen times up in his farewell appearance with the Oaks, batting .467 for the week. Ray Miller was the other Oak who hit over 400 last week, hitting nine times in twenty-two at bat for a .409 weekly average and for the most hits that any Oak made in the week against the Beavers.

But the usually steady heavy hitters of the Oaks fell off last week, which accounts for the fact that in the club records, Oakland has dropped into a tie with Vernon for last place in the batting averages. As a club, Oakland batted only .255 against Portland last week, while the Beavers piled up a weekly batting average of .270 against the Oaks.

**MURPHY AND LEE DROP BELOW .300.**  
Rod Murphy and Billy Lee each dropped out of the .300 ranks by their poor batting last week. Lane batted only .192 for the series and dropped to .297 in the season's averages to date. Murphy batted only .160 for the week and dropped to .238 in the season averages. Murray batted .280 for the series last week, Middleton, .214, and Lane, .187.

Howard, Arlett and Roche are all bunched between .333 and .319 as the only Oaks hitters over .300. Jack Roche is batting .299; Murphy, .293; Lee, .297; Ray Miller jumped to .272; Middleton, .247; Murray, .239; Mensor, .234; Lane, .227, and Sheehan, .200.

The Oaks are tied with Vernon for fifth place in the club batting records and are also tied with Vernon for fifth place in the fielding records.

**BUDDY RYAN PRESSING BASELIER.**  
Basser of the Angels went hitless against Vernon last week, but he was far enough out ahead so that he could stand that drop and still remain the leading hitter. Basser is batting .352 up to date; Buddy Ryan of the Bees is crowding him at .350, and Fournier of the Angels is a good third at .341. Pick of the Seals leads the run makers and the base-stealers. Mensor of the Oaks has climbed up to fourth place among the run makers. Lee of the Oaks is sixth among the base-stealers and Murphy and Lane are also listed in the leading ten base-stealers. Schaller leads in two baggers. Nobody has passed Hack Miller for the lead in three-base hits, although there are three tied with him. Williams of Portland leads in home runs, and Middleton of the Oaks has increased his lead in sacrifice hits.

The following records are complete up to date, and include the Sunday games, which are not included in other averages published around the bay; also the TRIBUNE'S averages are the only ones which give the dope on all players in the league; other averages give no recognition to the men who are batting below .200.

# TIME IS EXTENDED FOR MERCY WORK

## MANY GIFTS POUR IN FOR GREAT FUND

Contributions are pouring into Red Cross headquarters today, all helping to swell the final total. Many of the contributions have been mailed in, some are brought in and still others are gathered at random on the streets and in buildings by the corps of workers who are in every nook and corner of the city hard at work.

Today's contributions of \$50 or over are as follows:

Chevrolet Motors Company	\$2500
Mrs. Matilda Brown, Mrs. Annie Powers, joint subscription of	500
John K. Lyon	500
Jackson Furniture Co.	400
Miss Elizabeth Chambers	250
Sherman, Clay & Co.	250
Security Bank	250
Oakland Fire Department	200
Standard Gas Engine Co.	200
F. H. Hink	200
R. S. Phelps	125
M. W. Hodkins Co.	100
California Wire Cloth Co.	100
W. S. Rhein	100
Amy Requa	100
Lawrence Requa	100
Alice Requa	100
John M. Stachler	100
Solomon Kahn	100
Julia S. Phelps	100
Gertrude Matheny	50
Charles H. Jones	50
C. S. Monroe	50
Joseph Phoeby	50
Thomas Phoeby	50
Fred Elsey	50
Charles Elsey	50

## PIERCE TELLS OF GREAT TASK FOR RED CROSS

"The call is for all humanity—not merely to win a war," said Lyman L. Pierce, executive secretary of the Western committee of the Red Cross War Council, speaking today of the work ahead of the big organization.

"Long before the conflict ceases—in fact, before it is over, our Red Cross will be actively engaged in giving first aid to the starving multitudes in the nations impoverished in the war and in helping the devastated regions to become self-supporting. It is a duty which we cannot avoid, even if we had a disposition to shirk it. The world is too closely knit these days for any country to shut its eyes to the misery and ruin in another country. Let me quote Herbert C. Hoover, who, perhaps, more than any other man in this country, appreciates the situation in all its big phases. He says: 'The Red Cross is perhaps the only organization founded fundamentally for the care and comfort of soldiers, but we are not fighting this war alone for the direct efficiency of battle. We are fighting here for infinitely greater objectives, and there is no support that can be given to the American ideal, to the American objective of this war, better and greater than a perfect organization of that side of our civilization which we believe today is imperiled.'

"Our contention of civilization lies in the tempering of the struggle for existence by the care of the helpless. We must now concentrate the strength of the whole nation into the Red Cross in order that it may undertake this possibly the greatest work which we have yet to perform—and that is to bind the wounds of the exhausted nations."

**ENGINEERS GIVE \$10.**  
Stationary Engineers' Union, No. 507, of Oakland, last night voted a donation of \$10 to the Red Cross fund.

## YES, HONEST SAILOR, IT IS WORTHWHILE

**By Gene Baker**

The big sailor was touchingly polite as he moved through the crowd on Saturday night. You see the men who will sail ships that will go down, and the nurses who will give their services free to the labor of saving American lives, had to turn in themselves and ask for subscriptions for the Red Cross. Those nurses shivered all evening in their lined aprons, but they never complained, though many of them had been on duty all day in the hospitals.

Some of you had not yet dug down into your pockets for the war fund and they were asking for the hand of the ingenious white money clock erected in the Fourteenth-street plaza indicated that not half by many thousands of the amount required from the city had been raised.

**"WILL YOU GIVE?" ASKED**  
The big sailor asked another in the dense gathering that stood before the city hall listening to the singing choirs marshalled there under two gleaming crosses from the churches.

"Will you give to the Red Cross?" he asked of a woman in a big blue hat. He jingled before her one of the cans tied with red ribbon in which contributions were being taken up slowly in many shops and on many corners. There was something very wistful about this fine-looking fellow with his bronzed throat and his appealing blue eyes, his simple manners.

"The woman in the blue hat cannot resist an impulse to joke. 'Do you think it's worth while?' she demanded in an aggressive voice, staring at him aggressively.

He started back in hurt and petrified astonishment.

"Do—I—think—it's—worth—while?" he repeated slowly. "Well—There, there," she smiled so that he began to gather that she didn't mean what she insinuated. "I've been working every day for the Red Cross myself. I had to tease you, that's all."

"Oh," he laughed in relief, showing all his superb white teeth in the electric light that held the street in its hard, steady glare. "How could I tell? So many of them don't seem to care. I have got ten women to describe before I get one man. Those red crosses of lights in the windows look great, don't they? But when one person really does give and take an interest, it all seems—well, worth it."

He looked at her appealingly for confirmation of his sentiments. He was plainly a bit discouraged and yet eager to be reassured as to the public. Was it that sluggish, unawakened public that refused to listen to him, refuse to give, to put out of its heart for which he was going to war?

"Yes, it's worth it," she nodded. "Good luck to you."

**MAY PREVENT SUFFERING.**  
You don't mind so much if a man is shot so that he never knows what struck him and dies without special pain when he falls. He takes that chance when he goes and he is not on your individual conscience. His death seems inevitable.

But when he suffers greatly of wounds and of disease because there is no one to bind his disabled body and no bed in which he may rest—that may be your fault. Think of the extra guest beds some of you maintain in your houses for people who have no need of them, and then extend your hospitality to those who would be revived to life by it. Your guest may go away detesting you, but the man of the trenches will always be yours in his heart. What does it matter that he will never know your name and that he cannot write you a note of thanks? His unutterable gratitude will come to you inevitably.

But gratitude is not due from him to you. It is your splendid duty to give to him what you can. You've heard this every day now for a week, and some of you have responded nobly. But where are the others to whom giving hundreds would be as easy as for the many to give half dollars?

## DAY IS ADDED TO OAKLAND CAMPAIGN

The Red Cross drive will last another day in Oakland, or until midnight of June 26.

This was determined today after a telegraphic conference with the National American Red Cross headquarters, who gave the necessary permission for an extension of the original time by an additional twenty-four hours. The reason given is that Oakland was behind other cities in getting its campaign organization finished a matter of two days. Allowance for this has been made by the main headquarters.

Word of the extension of the campaign until Tuesday night came in the form of a communication received at the local headquarters in the Syndicate building from Albert Ehrig, state organizer, this morning. The communication read:

"Joseph H. King, Chairman Oakland Red Cross War Fund Campaign, Oakland, Cal.

"My Dear Mr. King: Oakland certainly should be given her full opportunity to make good in this Red Cross war fund campaign. Your city has the unfortunate handicap of starting the campaign two days later than did other cities the country over. I have just communicated with general headquarters and have received the following dispensation: That one more day be added (including Tuesday, June 26, until midnight) to achieve this much desired victory of rounding out the \$200,000.

"With confidence that the citizens of Oakland will rally to this patriotic emergency, I am, very earnestly yours,

**ALBERT EHRLGOT.**"

**DRIVE FOR 'BIG ONES.'**  
The drive is on today for the "big ones" the men high in finances, in property holdings, in mercantile and industrial activities and estate possessions. These are the men, and the women as well, to whom Oakland is looking today to bring up the final totals to the national campaign by the national committee as this city's portion of the national fund of \$100,000,000. The wage earners in all walks of life, the men of small increment, clerks in stores and banks, the employees of factories, firemen, street car men, policemen—all of these have contributed, and are figured upon the basis of their salary compensations, have contributed generously.

But there are those who have not, and who are the "big ones" the men and women on whom the general campaign committee is centering its attention. They alone can save a deficit in Oakland's share of the war fund by contributions of \$1000 or more. Pursuant to this idea, the campaign committee late last night sent out the following two telegrams to 115 well-known citizens, whose aid is not only solicited, but expected as a duty contribution to the local collections:

**TELEGRAM NO. 1.**  
San Jose subscribed to date \$220,000. Oakland must contribute \$200,000. Must have subscriptions in \$1000 amounts to save our face. Will you do your part?

**TELEGRAM NO. 2.**  
Oakland faces national disgrace unless you make more liberal contribution to Red Cross. We now have only \$80,000 allotment of \$200,000. Do your part.

As a result of these telegrams, several responses have been received at the general headquarters, which have raised materially the subscription to the cent out of it. It is the hope of the committee in charge that sufficient impetus will be given to the movement by reason of the extra allotted day and the force of the telegrams as to impel some of those who have made no donations or contributions to bring up the total to the allotment of \$200,000.

**STERLING WORK DONE.**  
Sterling work in this regard has been done by individual persons, and organizations. From the Employees' Association of the H. C. Capwell company comes an original donation in the form of \$10 per month. "until we finish Germany," the presentation letter reads. From several of the commercial organizations of the city comes word of an intention to increase amounts already given in order to save the city the shame of falling below its allotment.

Approximately \$110,000 is available for the national fund, according to figures of the local committee as of today. Of this amount the greater portion is in cash and the balance in pledges by persons whose responsibility is assured. Many of the team captains have a considerable amount of money on hand not yet reported to the committee and the work of checking up on the money collected in various parts of the city yesterday has not yet been completed.

That the failure of Oakland to come up to her full contribution, if such a contingency arises, will rest upon the shoulders of some of the city's wealthiest citizens who have not done their share, is the statement of Chairman King, who was frank in his declaration that many had been depended upon for contributions and not made them. A. S. Lavenson, another member of the committee, also expressed himself upon this subject in emphatic terms.

"There are some forty persons in this city," he said, "able to give all the way from \$10,000 to \$25,000 who have not yet given anything to speak of. We hope they will do so today at least."

**"SAVE OUR WOUNDED."**  
The Sunday program of the general committee was filled with action from sunrise to sunset and far into the evening. Over the back fences went the words of the drive: "Save Our Wounded." Housewives solicited from housewives, and name after name fed into committee headquarters as tokens of the work which was being done quietly but effectively. The greatest givers have been the small wage-earners, the men and women of salary, the

## Girl Flyer on Last Lap Of Trip to Aid Red Cross

MISS KATHERINE STINSON, who flew today for the Red Cross campaign.

## Carries Checks to Capital, Representing Many Millions Given by the Cities Visited

ALBANY, N. Y., June 25.—Heading southward of the broad expanse of the Hudson river, Miss Katherine Stinson, 19-year-old aviatrix, at 10:10 o'clock this morning started the last lap of her flight to Washington on behalf of the Red Cross campaign.

After a brief stop on the outskirts of New York, Miss Stinson will continue to Washington, via Philadelphia and Baltimore, expecting to reach the nation's capital late this afternoon. She is carrying checks for several million dollars, representing the contributions of some of the cities she has visited to the Red Cross fund.

## ALIGNMENT OF COUNCIL IS IN DOUBT

"No change in the situation," was the informal bulletin from the Oakland political front today, city hall sector. Partisan camps have been reconvening and sallies have been made by both sides in an effort to capture some information that will indicate what the big onslaught is going to be a week from today.

Commissioner-Elect Fred F. Morse is reticent and his conferees, Commissioner-Elect Frederick Soderberg, likewise maintaining discreet silence as to what the alignment will be in the new administration. Both assert that they are not gathering forces to oust Chief of Police Petersen from his long entrenchment as head of the department. The chief fought hard for his present position and it is known that his friends have been rallying for the purpose of defending him if necessary.

Beyond the insistent discussion that has centered about the chief of police few other positions have received mention in more than a disinterested way. His appears to be the most important if the amount of talk and surmise regarding it is to be considered indicative of prominence.

There will be changes in the personnel of the different departments. That is certain. It is about the only prognostication that can be made with assurance.

"They will be they won't." "This is the straight dope." "What will happen July 2 is this," and so on are the sage prefaces made by the wise ones in opening long verbal analysis of the situation.

There is an incessant fire from small pieces in the field it is notable that the big guns which will have the final say in the argument have not yet been brought up to the firing line.

## NOT IN CAMPAIGN

ZANESVILLE, O., June 25.—Zanesville is probably the only city of its size in the country not participating in the Red Cross campaign closing tonight. Zanesville is conducting a campaign to raise \$100,000 for a new Y. M. C. A. building. The population is about 20,000.

## FRESNO CAMPAIGN

FRESNO, June 25.—Leaders in Fresno's campaign for Red Cross funds conducted a house-to-house telephone canvass today to raise \$50,000 needed to complete Fresno's \$125,000 allotment.

sult they collected \$162 for three hours' work from persons who otherwise would not have contributed. The young women have been placed far up on the honor list of the volunteer workers.

## GOLDBERG, BOWEN & CO.

Month-End Sale of Every-Day Groceries at Special Prices for Monday, Tuesday and Wednesday

## CUSTOMERS MUST BE ENTIRELY SATISFIED HERE

A customer in any of the establishments of this company must be absolutely satisfied in every particular before a transaction is complete—this has always been our rule. We are satisfied only when you are—the fundamental principle of a successful business is the determination to give customers at all times the most efficient, courteous service possible. The mere selling of a pair of glasses is not sufficient; they must be ground accurately and mounted in suitable eye-glasses or spectacles to give the best results—this can only be done satisfactorily by men of ability and experience—33 years of good optical service is our record.

## HOLDS JUBILEE

SACRAMENTO, June 25.—The golden jubilee of the ordination of Bishop Thomas Grace to the priesthood, marking the fiftieth year of his service to the church, was observed at the cathedral of the Blessed Sacrament here with unusual solemnity. It was an epochal event in the history of the Sacramento diocese of the Roman Catholic church, which embraces all of Northern California and Western Nevada. The great cathedral was taxed to the utmost to accommodate the throng. There was a splendid musical program.

Bishop Grace sang the pontifical mass. Archbishop Hanna of San Francisco presided, assisted by Bishop Glass of Salt Lake City. Many other prominent churchmen from all over the diocese were present.

Following the gospel Archbishop Hanna

## HURT BY BOTTLE

GREAT FALLS, Mont., June 25.—Former United States Senator Philip Gibson is under the care of physicians today as the result of being struck with a bottle, hurt, it is said, by two men who tried to pass his automobile on a narrow road. The former Senator will be 87 years old next Sunday and his condition is said to be serious.

Two arrests of men said to have been in the automobile from which the bottle came have been made by the police.

## DARGUE IS OUSTED

SAN DIEGO, June 25.—Captain Herbert Dargue, chief instructor of flying at the signal corps aviation school at North Island, has been relieved from the aviation service on war department orders and will report to the commander of the sea coast defenses of San Francisco for duty next Thursday.

## RECRUITING WEEK PLANS COMPLETED

"Are you going voluntarily or will you wait to be picked out and sent?" That is the question which will be asked of every man eligible to the selective draft in the week's drive which opens today to raise 70,000 men for the regular army before June 30 and bring its number to 200,000 in round numbers. President Wilson has designated this as Recruiting week, and all over the nation a special effort will be made to encourage volunteers in all branches of the service.

The young man who waits to be drafted into the army will have no choice as to what branch of the service he will enter. If he volunteers now he may choose in infantry, cavalry, artillery, signal corps, engineer corps, marine corps. Those who enlist during Recruiting week will be looked upon with special favor when it comes to making up the list of those who shall go to France at an early date.

Approximately 3000 men are needed from this district, which embraces all the central counties of the state. Thirty-eight sub-stations have been established in California and Nevada by Lieutenant-Colonel J. H. Gardner, in command of the recruiting drive from San Luis Obispo to the Oregon line. Associated with him are Major William H. Brooks, Major John F. Yost and Captain B. W. Naylor, from the regular army; Lieutenant-Colonel Sayre, from the Second Regiment, and Captain Clarkson, from the Fifth Regiment, of the California National Guard.

Under the selective draft bill, every man who volunteers now from any state will remove one unit from the allotment which that state will be required to furnish under the draft. Mass meetings and special assemblies are to be arranged by the local Chamber of Commerce in every city. Oakland will be in the forefront of this work and the downtown section of the city during the next seven days will be of a military aspect. Automobiles with parties of officers will parade the streets, with frequent stops at busy corners. Band music, vocal music and oratory in short and emphatic speeches will be the methods of inducing recruits to join the colors now.

During the last three months about 500,000 men have volunteered for military service. The regular army has increased from 100,000 to 230,000; the National Guard rose from 150,000 to 260,000; the marine corps advanced from 17,000 to nearly 30,000. The navy has added some 60,000 to its list, while some thousands of engineers and other special men have been added.

## Prince Is Punished For Visit Was Too Friendly With Germans

SAN FRANCISCO, June 25.—Friendliness with his former German brother officers and visits to them in a hospital on the border, and not smuggling interned German officers into their native land, is the real reason for the two weeks' "chamber arrest" at the royal country estates at "Het Loo" now being endured by Prince Henry of the Netherlands, prince consort of Queen Wilhelmina of Holland, according to Lieutenant H. C. Grupstra and D. Van Woerkom of Holland who are waiting here en route to the Dutch East Indies.

## 'DRIVE' PLANNED FOR NEW UNIT

Coincident with the national drive for recruits in the regular army those interested in the formation of the new battery of field artillery and headquarters company recently authorized to be raised in Oakland have announced the necessity of filling up the new units within the next two weeks if the honor of providing these troops is to remain with Oakland. Unless the organizations can be formed in this city within the required time the call for the troops will go elsewhere. Chief of Police Walter J. Petersen, who will command the battery, has issued a call for volunteers to assist in the drive. Men who can devote one or two hours each evening to the work of recruiting are asked to report at the headquarters of the new organization in the city hall today and the evening.

The new battery of field artillery will first go into the National Guard and then into the Federal service. It offers the last opportunity that will be given men to volunteer for military service before the draft becomes operative, and the men joining may expect to go into the Federal service not later than August 5.

PAIR OF GUARD. The new local battery will be a unit of the First Field Artillery, N. G. C. Three batteries—A at Los Angeles, B here and C in Stockton—already have been organized. Permission was given last week to organize three new batteries, one here and one each in San Diego and San Francisco. Besides the battery, Oakland also was given permission to organize the headquarters company of the regiment, consisting of 80 men, 27 of whom will be bandmen. The adjutant-general of the State has asked that the new organizations be recruited to full strength in the next two weeks.

The drive is planned, not because those interested have any doubt what a full complement of men will be recruited in the required time, but merely to hasten the job and beat San Francisco and San Diego in the race.

Men who desire to enlist in the battery or volunteer for recruiting service have been asked to call at the office of the chief of police from 9 to 6 o'clock during the day, and at room 223, City Hall, 7:30 to 10 o'clock every evening.

## SCOTT BROTHERS PLEAD NOT GUILTY

TRIBUNE BUREAU  
683 MARKET ST.  
SAN FRANCISCO, June 25.—J. J. Scott, former collector of internal revenue, and his brother, A. Clyde Scott, pleaded not guilty to the indictment charging them with embezzling government funds in Federal Judge Dooling's court this morning.

Attorney Timothy Healy announced that Attorney Bert Schlesinger would be associated with him as counsel for the defendants, and he made a motion to consolidate the three indictments against J. J. Scott. He declared that it would save time and money to make one case out of the accusation. Assistant U. S. Attorney M. A. Thomas offered no objection.

The defendants were brought to trial within the next two weeks.

KAISER'S NEPHEW  
DETROIT, June 25.—Johann Wilhelm, nephew of the Kaiser, would take up the gun against Germany—if the age limit of selective service were raised to include him.

Count von Hohenzollern is his title. He was born in Detroit and has been here for the last seven years.

The count's identity was disclosed when he applied to Marshal Behrent for permission to enter districts restricted to Germans.

While he spent the greater part of his 47 years in Germany, Johann was born here while his parents were touring the United States. His father is a brother of Bill Hohenzollern.

## VETERAN SEA CAPTAIN DEAD

Captain William Thonagel who had commanded sailing vessels voyaging from Pacific Coast ports to all parts of the world for nearly forty years, is dead after an illness of two years. For much of that time he was master of ships owned by A. P. Lorenzen, wealthy shipowner of Alameda. Captain Thonagel's last command was the Alta, in which he owned a part interest, and the building in which he superintended in Scotland. When the Alta was sold two years ago in Australia he returned here and retired. For thirty-two years he was a member of the Master Mariners' Association of San Francisco and was one of the best known of the old-time mariners.

Up to within six years ago, when Mrs. Thonagel died, the Thonagel family made their home on Ninth street, Alameda. He leaves two daughters, Miss Ella B. Thonagel and Mrs. William B. Zambreski, wife of one of the county purchasing agents.

Captain Thonagel was 59 years of age and was a native of Russia. Death came yesterday in Providence Hospital.

The funeral will be held tomorrow morning at the parlors of Freeman & Cox to St. Mary's church, where Rev. M. de Cruz will officiate at a requiem high mass at 8:30 o'clock. Interment, which will be private, will be in St. Mary's cemetery.

AID MOOSE TEAM  
At a meeting tonight at the club rooms of Oakland Lodge of Moose final instructions will be given to the one hundred members of the uniform bodies, and the Moose Boy Scouts who will act as scorers at the whist tournament Thursday evening, at Idora Park.

More than 1000 tickets have already been sold and the ticket committee reports that the balance are going rapidly. The proceeds from the whist tournament will be used to send the champion White and Blue drill teams and the corps to the annual Moose day celebration to be held at Stockton July 2 and 3.

FOR BILLY SUNDAY  
LOS ANGELES, June 25.—Through the organized effort of 205 churches in the city, the Billy Sunday \$100,000 fund, preliminary to his coming here this fall, was pledged to its full quota yesterday. It was announced today.

put off or if you have cracked or bleeding toes, Ice-Mint will draw inflammation out and quickly heal the sore and tender places. It is the real Japanese secret for fine healthy little feet, and is greatly appreciated by women who wear high heel shoes and men who have to stand on their feet all day.

No more tired, aching or burning feet. No more foot trouble. Ice-Mint will make your feet so cool and comfortable that you will just sigh with relief. It is now selling like "wild-fire" here. Just ask in any drug store for a small jar of Ice-Mint and give your poor, suffering, tired feet the treat of their lives. There is nothing better.—Advertisement.

## On Your Outing Take a BANJUKE

[Ukulele-Banjo]

Biggest Musical Novelty of the Season

Looks like a Banjo; has all the "jazz" and "pep" of a Banjo. While it has the appealing sweetness of the Ukulele, it has a much greater variety of tone coloring. Tuned and played like the Ukulele and just as easily learned. Full two-octave scale, 16 frets, simple and practical head tension. Beautifully made of fine figured genuine Hawaiian Koa and hard maple.

Price \$12.50

You know those green blue and red tin boxes!

SURE, you know them; the ten cent kind you carry around with your favorite Burley tobacco. You pour out of it for your pipe, or to "roll your own."

There's never been anything like Burley tobacco has there; it's an able-bodied smoke, all right.

And have you smoked the new Burley cigarette—LUCKY STRIKE, the famous new cigarette made from toasted Burley tobacco. There's a real idea for you—toasted tobacco! It's the only big advance in cigarette making in 20 years.

Toasting the tobacco adds flavor and seals it in. It's the same principle as your familiar buttered toast, your broiled steak, your roasted coffee. Flavor, flavor, flavor—think of it.

It's toasted
